

INTRODUCING THE ALUMINIUM FIBER TECH MORTISE LOCK

Rust Resistant!

Rust-resistant nylon lock

Made from nylon and aluminium components this lock is designed to be rust free.

This makes it the perfect solution for areas where rust is a problem such as coastal areas or any other place where moisture is likely to cause problems, like bathrooms and kitchens.

Cast aluminium handles

Paired with the nylon lock, these make the perfect solution for areas where rust is a problem.

Handles are available in a variety of colours:

- | | | | |
|--|-----------------------|--|-------------|
|  | Satin Chrome |  | Smooth Gold |
|  | Satin Chrome Textured |  | Silver Vein |
|  | Gold Textured |  | Gloss White |
