

FORT KNOX

NEW ALUMINIUM RANGE

ALUMINIUM FIBER
TECH MORTISE LOCK

CAST ALUMINIUM,
POWDER COATED
HANDLES

Fort Knox has developed
a locally produced,
cost-effective solution
to the problem of rust in
mortise locks.

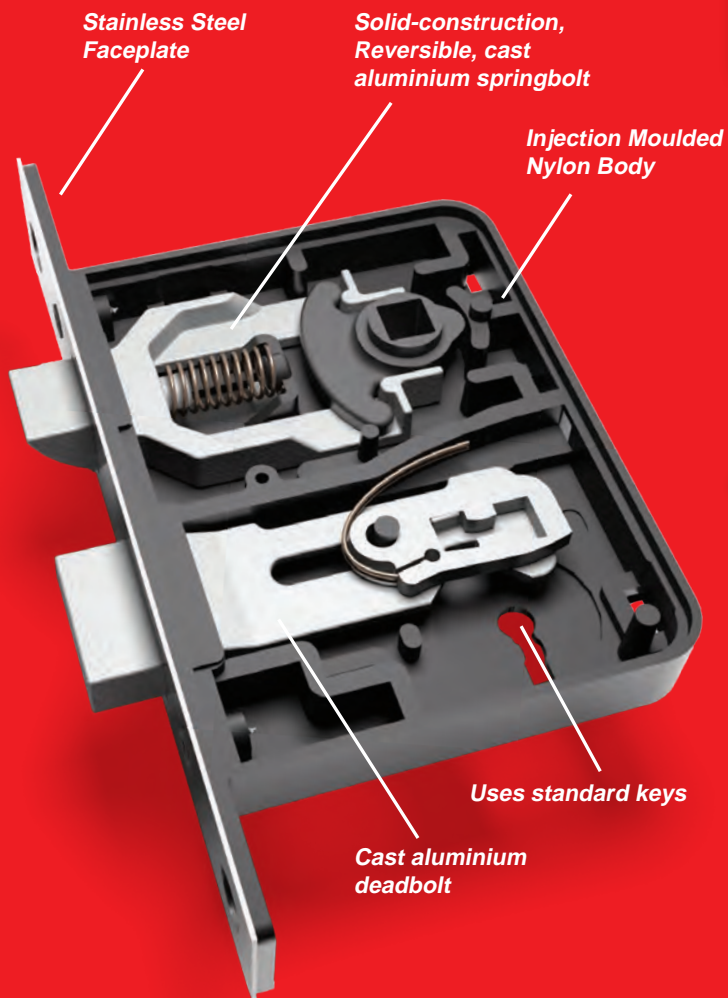

VERY
**Rust
Resistant!**

**Affordable,
Durable
& Attractive!**

Cast aluminium handles

Paired with the nylon lock, these make
the perfect solution for areas where
rust is a problem.

Rust-resistant nylon lock

Made from nylon and aluminium components this lock is designed to be rust free.

This makes it the perfect solution for areas where rust is a problem such as coastal areas or any other place where moisture is likely to cause problems, like bathrooms and kitchens.
