

INTRODUCING THE ALUMINIUM FIBER TECH MORTISE LOCK

Long-lasting & very durable

Solid-construction, Reversible, cast aluminium springbolt

Injection Moulded Nylon Body

Cast aluminium deadbolt

Uses standard keys

Rust-resistant nylon lock
Made entirely from nylon and aluminium components this lock is designed to be rust free.

This makes it the perfect solution for areas where rust is a problem such as coastal areas or any other place where moisture is likely to cause problems, like bathrooms and kitchens.

Stainless Steel Faceplate

Affordable, Durable & Attractive!

Cast aluminium handles
Paired with the nylon lock, these make the perfect solution for areas where rust is a problem.
